SUMMARY

With 3 years of hands-on experience in frontend development, I have developed a strong expertise in crafting dynamic and responsive user interfaces. I am proficient in HTML, CSS, and Bootstrap, and have advanced skills in modern technologies such asTypescript, JavaScript, jQuery, Next.js, React.js, Material-UI, Tailwind CSS, CSS, Sass, and SCSS. My journey began with HTML and CSS, and I have since evolved into an expert Next.js React.js developer, leveraging its capabilities to build robust and scalable web applications.

In addition to frontend technologies, I possess basic knowledge of backend technologies including SQL, Node.js, MongoDB, and Express, which enhances my ability to collaborate effectively across the stack. My proficiency extends to using Excel, PowerPoint, and MS Word, ensuring comprehensive support for project documentation and presentations. I am committed to continuous learning and staying current with industry trends to deliver high-quality and innovative solutions.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Material Ui, jQuery, HTML5, CSS3, SCSS, Sass, API Integration.
Firebase: Used for backend services like Authentication, Realtime Database/Firestore, Cloud Functions.

Libraries/Frameworks: Next Js, React JS, Redux , Axios, React Router, socket.io, Paypal payment integration ,React hook form, Formik, Yup, Zod, shadcn

Tools: Github. Postman , Vercel, Netlify, Docker

Basic Backend: Express JS, Mongo DB, Mongoose

PROFESSIONAL EXPERIENCE

Digital Adaptation **Islamabad, 12/2024- Present**

Next/React JS Developer

- Collaborating on dynamic frontend interfaces using **Next.js**, **React.js**, and **TypeScript**.
- Proactively explored new technologies and frameworks to enhance skills and support the company's drive for innovation.
- Integrated **Firebase** services including Authentication, Firestore, and Hosting for scalable app functionality
- Utilized **Tailwind CSS**, **Material UI** to craft responsive, user-friendly UIs.
- Worked on API integrations, improving performance and user engagement.

Moshlay Creatives **Lahore, On-Site 07/2024-12/2024**

React JS Developer

- Developed and maintained web applications using React JS, Node JS, Express JS and Mongo DB ensuring high performance, responsiveness, and scalability
- Engaged in continuous learning and professional development by exploring new technologies and frameworks, contributing to the company's innovative culture.
- Participated in company-wide initiatives to improve development processes, promote teamwork, and enhance overall productivity.

Itify (SMC Private) limited **Burewala, On-Site 09/2023-08/2024**

React JS Developer

- Developed and Enhanced User Interfaces: Created responsive and interactive Ul using modern React frameworks ensuring seamless user experiences.
- Collaborated Across Teams: Worked closely with designers and back-end developers to translate design mockups into high-quality web applications
- Responsive Design Implementation: Applied responsive design techniques to ensure compatibility across various devices and screen sizes, enhancing accessibility and usability.

Itify (SMC Private) limited **Burewala, On-Site 06/2023-09/2023**

Forntend Developer, Internship

- Designed and implemented the website layout and user interface using HTML and CSS.
- Ensured cross-browser compatibility and responsiveness for an optimal user experience on variousdevices.
- Collaborated with the design team to translate visual concepts into functional web pages.
- Integrated CRUD operations (Create, Read, Update, Delete) for efficient customer data management, ensuring seamless and reliable interaction with the system.
- Designed a responsive and intuitive user interface (UI) and user experience (UX), ensuring consistent usability across various devices and screen sizes.

PROJECTS

Enterprise Real Estate Marketplace

- Next.js, Node.js, Express.js, MongoDB, Redux Toolkit, REST APIs, AWS
- Developed a full-stack real estate marketplace platform using Next.js and Node.js for buying, selling, and renting properties. Built advanced property listing and management modules with dynamic search filters, map-based property browsing, agent dashboards, and inquiry management systems. Implemented JWT authentication, role-based access control, server-side rendering (SSR), SEO optimization, image upload/storage with AWS S3, and high-performance REST APIs. Integrated responsive UI/UX, property analytics, saved favorites, and admin panel features to enhance user engagement and scalability.

Dubai Safari Booking Platform

URL: https://www.bookdubaisafari.com/

- Developed a full-stack tour booking web application for Dubai Safari using React.js and Node.js. Implemented dynamic ticket booking, package management, responsive UI, API integrations, and secure backend services. Built user-friendly interfaces for safari packages, online reservations, and payment workflows while ensuring optimized performance and scalability.

Digital School Management System (Multi-School Platform)

URL: https://digitalschools.digiadaptation.com/

- Developed a multi-school digital school management system with a centralized Super Admin portal allowing multiple schools to register and operate independently.
- Designed and implemented role-based dashboards for Super Admin, School Admin, Principal, Vice Principal, Teachers, Staff, Students, and Parents with secure authentication.
- Built a hierarchical access control system enabling School Admins to create custom roles and delegate permissions to staff members.
- Managed both frontend and backend development, including user management, data isolation per school, and secure content management.
- Implemented scalable architecture to ensure data security, performance, and easy system expansion.
- Technology used Next.js, TypeScript, REST APIs, Role-Based Authentication

Step Career Path – School Management Website

URL: https://www.stempathway.org/

- Developed a React.js-based web app for managing student registrations.
- Built role-based dashboards for admin with proper authentication and API integration.
- Also handled frontend and backend with full content management features.

Khatri Brothers Academy (Music Academy for International Students)

URL: https://www.khatribrothersacademy.com/

- **Implemented client-side** functionality allowing users can view Music courses and buy defined and custom courses (custom courses can add by Student or learner) with complete secure transactions.
- Designed and integrated the **admin**, **instructor** and **student Dashboards** with **role-based authentication** for maintaining secure access controls.

Moshlay Creative (IT Web and App Development Company)

URL: https://moshlaycreatives.com/

- Developed a fully responsive IT services platform for Moshlay Creative, offering comprehensive web and mobile app development services tailored to client needs.
- Designed user-friendly interfaces, ensuring intuitive navigation for potential clients to explore service offerings and request quotes seamlessly.
- Implemented a robust backend system to support secure transactions, service bookings, and client management.

Moshlay Printing (E-commerce and Custom Packaging Platform)

URL: https://moshlayprinting.com/

- Developed a robust e-commerce platform for Moshlay Printing, facilitating seamless product browsing, custom packaging orders, and secure online transactions.
- Implemented features such as free die and plates, along with high-quality offset printing to ensure premium packaging solutions.
- Designed an intuitive interface for easy customization of packaging options, providing a user-friendly experience for both individual and business clients.

Cali Orign (E-commerce Platform for Premium Products)

URL: https://caliorigins.com/

- Engineered an advanced e-commerce platform for Caliorign, enabling smooth navigation, product discovery, and a secure, streamlined checkout process.
- Integrated dynamic product customization options, allowing users to personalize their purchases effortlessly.
- Focused on delivering a visually engaging user experience, combined with robust backend functionality to ensure optimal performance and seamless transaction handling.

Itify(SMC Private) Limited (Website for Software house)

URL : https://itify.website/

- **Project Overview** Developed the company's official website for Ifify (SMC Private) Limited, a software house, focusing on delivering a clean and professional web presence.
- Worked closely with the design team to ensure the website met the company's branding and functional requirements.
- Ensured a **responsive design** for an optimal user experience across all devices, including desktops, tablets, and smartphones.

Jarob Tech (IT Web and App Development Company)

URL : https://jarobtech.com/

- **Project Overview** Crafted an intuitive, user-friendly platform that simplifies navigation and streamlines service inquiries for clients.
- Implemented secure, real-time project tracking, empowering clients to collaborate easily and stay informed throughout development.

Education

University Of Agriculture Faisalabad **2023**

Bachelor's of computer science

- 3.5+ CGPA
- Debate club member.

Aspire College Burewala **2019**

FSC (Pre-engineering)

- Over-all 75% score holder.
- Participated in science exhibitions and sports

Hobbies and Interest

- Cricket
- Video games
- Traveling
- Photography
